Subject: Draft 2013 Consumer Confidence Report for the Polacca Water System
Attachments: Polacca-2013.pdf; Polacca-2013.rtf

Attached is a draft of the 2013 CCR for the Polacca water system. The draft document is in two formats – Word and PDF. One format you can modify, but does not look very good (Word). The other format looks better but cannot be changed (PDF). Please remember that the information in the Water Quality Table comes from USEPA's database. It should be the most correct information for the water system.

With the reorganization of the Water Division, moving into new temporary office space for the next couple of years, and losing 5 people in the Drinking Water Office in the last 1.5 years primarily due to retirements, there are some potential changes coming up in the next few weeks within the Drinking Water Office of Region 9. Right now, I know that my work load will officially double in a couple of weeks – on a "temporary" basis. I will keep you informed of what is going on.

Please contact me if you have any questions.
